Comp 170 Homework

Complete the following program by supplying the missing function. Do not change the main function!

```
#include <iostream>
using namespace std;

// missing function goes here

void main()
{
  int id[5] = {123, 234, 333, 401, 500};
  float bal[5] = {0.0, 100.0, 250.0, 50.0, 1225.0};
  float result;
  int idtofind, found;

  cout << "ID to find? ";
  cin >> idtofind;

  while (idtofind > 0)
  {
      FindBal(id, bal, idtofind, found, result);
      if (found)
        cout << "The balance is " << result << endl;
      else
        cout << "Not found";

      cout << "ID to find? ";
      cin >> idtofind;
  }
}
```
